EVENT REPORT

Name of the Activity:	Internship Fair	
Date: 02 nd May 2024	No. of Participants: 130	

On May 2nd, 2024, the ME Department of the Maharaja Agrasen Institute of Technology, Delhi, organised a one-day internship fair. The purpose of the event was to link the gifted second- and third-year undergraduate engineering students with core companies for internships. The fair served as a foundation for improving students' corporate competency and preparing them for entry into the huge corporate world, all while working towards the shared objective of offering students a variety of internship options.

The event was graced by the presence of seven core companies, six offline and one online. Internship opportunities were offered in various profiles ranging across Design intern, Quality Check and assurance, Research Intern and many more. The students showed great enthusiasm and the event saw 100+ registrations. There were almost 130 applications and over 100 students were shortlisted for the further rounds of the selection process. The department tried its best to serve the students by informing them about the internship opportunities and providing them with these opportunities, which can help the students in their corporate careers ahead.

On the day of internship fair, registration of the students was started early in the morning. Companies were given particular location of ME dept building's various rooms. A list of companies and its requirement was displayed so that students can identify their choice of company. Facilities were provided to the industries for conducting their recruitment process. The process of recruitment varied from industries to industries, most of industry representatives have followed all their process like written test, Group Discussion, Personal Interviews etc.
