Inspiring the Next Generation: Team Jatayu and Eendhan

On the eve of India's 78th Independence Day, our college campus was abuzz with excitement as the fresh batch of 2024-2028 embarked on their academic journey. Amidst the fervor of the orientation ceremony, Team Jatayu and Eendhan seized the opportunity to showcase their passion and inspire the incoming students.

The college grounds transformed into a vibrant hub of student engagement as various clubs and societies set up their stalls. Among them, Team Jatayu and Eendhan stood out with their impressive display of engineering prowess. The center of attraction was undoubtedly Team Jatayu's state-of-the-art ATV, a testament to the team's dedication and technical expertise. The gleaming trophies lined up beside the vehicle served as a reminder of their past triumphs and a beacon for aspiring engineers.

As the orientation concluded, a wave of enthusiastic students flooded the stalls, eager to explore the diverse

opportunities offered by the college. Team Jatayu and Eendhan were inundated with curious minds seeking insights into the world of automotive engineering and design. The team members, with their infectious enthusiasm, patiently addressed every query, from the fundamentals of the design process to the thrill of participating in national competitions.

The interactive session proved to be a catalyst for inspiring the next generation of engineers. Many students expressed their admiration for the team's accomplishments and expressed a keen interest in joining. The spirit of camaraderie and knowledge-sharing was palpable as the teams fostered a sense of belonging among the newcomers.

The event served as a platform for Team Jatayu and Eendhan to not only showcase their work but also to inspire and mentor the incoming students. It was a testament to the power of student-led initiatives in shaping the future of engineering education.
